

EuroTaller Confirms Support for AutoAmericas Miami

Miami, USA (June 24, 2024) – AutoAmericas Show has confirmed the support of the EuroTaller Network for the third edition of the event specializing in autoparts and accessories for the Latin American and Caribbean market, which will be held in Miami on February 19-20, 2025, at the Miami Airport Convention Center (MACC).

EuroTaller is a network that brings together independent automotive workshops and is characterized by offering high-quality services, professional attention, training, original replacement parts, certification, and other activities.

In recent years, the network has grown exponentially in Latin America, with more than 100 auto shops distributed in countries such as Panama, Costa Rica, Guatemala, Ecuador, Colombia, Venezuela, and others.

Having the support of the EuroTaller Network and its presence in Miami reinforces the work of AutoAmericas Show by partnering with important entities related to the aftermarket industry and keeping close relationships with the most recognized repair shops of the region.

"On behalf of AutoAmericas Conference, we are really pleased to enter into this agreement with EuroTaller," said Max Jaramillo, Managing Director of Latin Press organizer of AutoAmericas. "We can't wait to host their members with us next year in Miami and help the platform gain greater exposure internationally."

"We are happy to announce this strategic alliance between AutoAmericas and EuroTaller. We will see you soon in Miami and we are ready for everything that comes", said David Ibarra, manager of the EuroTaller Network for Latin America. "Our expectations with this alliance are very high; we want to bring the concept of professionalizing the automotive sector to all the workshops that participate in AutoAmericas, in addition to supporting all the activities and offering our services."

About Eurotaller

EuroTaller has the support of GroupAuto International, and has established itself as a reference for quality and professionalism in the automotive sector in Central and South America, offering its clients top-level services and contributing to the development of the sector. Founded in Spain more than 30 years ago, the network has experienced significant growth in recent years.

About AutoAmericas Exhibition

The AutoAmericas Conference & Exhibition is an event aimed at professionals in the aftermarket auto parts industry for South Florida, the Caribbean, and Latin America. It connects buyers and sellers, showcasing new products, industry trends, and fostering business relationships. Essentially, it's a trade show where companies can learn, network, and conduct business.
